Are apprised that Dr. KINKELIN confines his practice of a particular branch of Medicine, which engages his individed attention. He cautions the unfortunate against the a use of increary; thousands are annually increaring and out of life. Recent affections are promptly extinguished.

TWENTY YEARS EXPERIENCE. In the treatment of a class of disease hitherto neglected and imperiently understood, has enabled Dr. KIN KELIN, (Juthor of a work on Self Preservation) to prove that mue tenthe of the causes of nervous defulliy ocal and constitutional weakness, mental and physical suffering, are traceable to certain labits, forming the most secret yet deadly and fatal springs of domestic unisery and premature mortality.

TAKE PARTICULAR NOTICE. TAKE PARTICULAR NOTICE.

There is an evil habitsometimes indulged in by boys, in solitude, often growing up with them to manhood, and which, if not reformed in due thire, not only legets serious obstacles to matrimonial happinoss, but gives rise to a series of portracted, hisdions, and devastating affections. Few of those who give way to this perulcions practice are aware of the consequences, until they find the nervous system abattered, feel strange and unaccountable feelings, and vague fears to the mind.

The unfortunate this affected becomes feele, is unable to labor with accustomed vigor, or to apply his mind to study, his step is tardy and weak, he is dull, or resolute, and engages in his sport with less energy than issue.

Requires the fueliment of several conditions, in order that may be really the cause of mutual happiness. Could the veil which covers the origin of domestic vereichedness be tarsed, and its true source in every instance disclosed—in how many could it be traced to physical disqualifications and their attendant disappointment! Apply them while it is yet time, in order to have your instring and relaxed organization rebraced, revivined and strengtioned.

REMEMBER

He who places himself under Dr. KINKELIN'S treatment may religiously confide in his bonor as a gentleman and rely upon the assistance, that the secrets of Dr. K's patients with heaver be disclosed.

Young man—let no false modesty deter you from making your case known to one who one who are the secret in their respectability, can certainly before disclosed.

AYER'S

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

There has long existed a public demand for an effective purgative pill which rould be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we be taken judiciously. Minute directions for their use in the several diseases to which they are applicible are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Judigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Files, Colic, Dysentery, Humors, Scrotula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly suecessful cures in Rheimatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the

water the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which when taken to excess. The thousand cases in which a physic is required caunot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a

And not only in firmidable attacks upon the lungs, but for the milder varieties of Colds, Coughs, Hoarsuness, &c.; and for Children it is the pleasantest and safest medicine that can be obtained.
